The

Geophysical Journal

of the

Royal Astronomical Society

incorporating

the Geophysical Supplement to the Monthly Notices of the R. A. S.

Volume 4, 1961

A special volume of invited contributions dedicated to

Sir Harold Jeffreys

by some of his students and colleagues on the occasion of his 70th birthday

Published and Sold by the

Royal Astronomical Society

Burlington House, London, W.1, England

1961

H. Jarosch.

Herbert Marcuse

O. P. Grimm

A. A. Day

Pietro Laboi

K. E. Bullen

N. Jolat

Francis Birch

Desmond King-Hele

Robert Stoneley.

Chaim Léb Pekeris

Guy Lehman

Robert H. Merson.

Robert L. Kovach

Walter Munk

F. Jansman.

J. A. Jacobs

Chuji Tsuboi

Edward Bullard

Frank Press

E P Sayed Mahamed Hassan

E. R. Lapwood

Leon Knopoff.

Z. Alterman

Alan Cook

H. Takeuchi

John Verhoogen

M. W. Hochstrasser

Koji Kodaka

P. L. Willmore

T. F. Gaskell.

Markus Bath

Alterman, Z., H. Jarosch and C. L. Pekeris, Propagation of Rayleigh waves in the Earth .. 219

Atmosphere and Oceans:
Atmospheric excitation of the Earth's wobble, W. H. Munk and El Sayed M. Hassan .. 339
Equatorial upwelling and sinking in a zonal ocean with lateral mixing, K. Hidaka 359

Båth, M., Polarization of transverse seismic waves .. 106
Bullard, E. C. and A. Day, The flow of heat through the floor of the Atlantic Ocean .. 282
Bullen, K. E., Seismic ray theory .. 93
Birch, F., Composition of the Earth's mantle .. 295

Caloi, P., Seismic waves from outer and inner core .. 139

Composition:
Composition of the Earth's mantle, F. Birch .. 295
A weak layer in the mantle? A. L. Hales .. 312
Rock magnetism in Western Europe as an indication of continental growth, F. F. Evison .. 320
Cook, A. H., Resonant orbits of artificial satellites and longitude terms in the Earth's external gravitational potential .. 53

Day, A., E. C. Bullard and, The flow of heat through the floor of the Atlantic Ocean .. 282

Earth's Gravitational Field and Geodesy:
The Earth's gravitational potential deduced from the orbits of artificial satellites, D. G. King-Hele .. 3
The motion of a satellite in an axi-symmetric gravitational field, R. H. Merson .. 17
Resonant orbits of artificial satellites and longitude terms in the Earth's external gravitational potential, A. H. Cook .. 53
Numerical tables useful for studying the gravitational field at higher elevations of the Earth, C. Tsuboi .. 73
Intrinsic coordinates in practical geodesy A. Marussi .. 83
Evison, F. F., Rock magnetism in Western Europe as an indication of continental growth .. 320

Free Oscillations:
Propagation of Rayleigh waves in the Earth, Z. Alterman, H. Jarosch and C. L. Pekeris .. 219
Calcul approche de la période des oscillations spheroïdales de la terre, N. Jobert 242
Torsional oscillations of the Earth, H. Takeuchi .. 259

Gassmann, F., Solution of an *n*-layer problem by a seismic reflection method .. 151

Hales, A. L., A weak layer in the mantle? .. 312
Hassan, El Sayed M., and W. H. Munk, Atmospheric excitation of the Earth's wobble .. 339
Hidaka, K., Equatorial upwelling and sinking in a zonal ocean with lateral mixing .. 359
Hochstrasser, U. and R. Stoneley, The transmissions of Rayleigh waves across an ocean floor with two surface layers .. 197

Instruments:
The Cambridge pendulum apparatus, J. E. Jackson .. 375
Some properties of heavily damped electromagnetic seismographs, P. L. Willmore 389

Jackson, J. E., The Cambridge pendulum apparatus .. 375
Jacobs, J. A., Some aspects of the thermal history of the Earth .. 267
Jeffreys, Sir Harold, An Appreciation, *R. Stoneley* .. ix
Jobert, N., Calcul approché de la période des oscillations spheroïdales de la terre .. 242

King-Hele, D. G., The Earth's gravitational potential deduced from the orbits of artificial satellites 3
Knopoff, L., Green's function for eigenvalue problems and the inversion of Love wave dispersion data 161
Kovach, R. L. and F. Press, Rayleigh dispersion and crustal structure in the Eastern Pacific and Indian Oceans 202

Lapwood, E. R., The transmission of a Rayleigh pulse round a corner 174
Lehmann, I., S and the structure of the upper mantle 124

Marussi, A., Intrinsic coordinates in practical geodesy 83
Merson, R. H., The motion of a satellite in an axi-symmetric gravitational field 17
Munk, W. H. and El Sayed M. Hassan, Atmospheric excitation of the Earth's wobble .. 339

Pekeris, C. L., Z. Alterman, H. Jarosch and, Propagation of Rayleigh waves in the Earth .. 219
Press, F., R. L. Kovach and, Rayleigh dispersion and crustal structure in the Eastern Pacific and Indian Oceans 202

Seismology—Body Waves:
Seismic ray theory, K. E. Bullen 93
Polarization of transverse seismic waves, M. Båth 106
S and the structure of the upper mantle, I. Lehmann 124
Seismic waves from outer and inner core, P. Caloi 139
Solution of an *n*-layer problem by a seismic reflection method, F. Gassman .. 151

Seismology—Surface Waves:
Green's function for eigenvalue problems and the inversion of Love wave dispersion data, L. Knopoff 161
The transmission of a Rayleigh pulse round a corner, E. R. Lapwood 174
The transmission of Rayleigh waves across an ocean floor with two surface layers, U. Hochstrasser and R. Stoneley 197
Rayleigh dispersion and crustal structure in the Eastern Pacific and Indian Oceans, R. L. Kovach and F. Press 202
Stoneley, R., U. Hochstrasser and, The transmission of Rayleigh waves across an ocean floor with two surface layers 197

Takeuchi, H., Torsional oscillations of the Earth 259

Thermal State:
Some aspects of the thermal history of the Earth, J. A. Jacobs 267
Heat balance of the Earth's core, J. Verhoogen 276
The flow of heat through the floor of the Atlantic Ocean, E. C. Bullard and A. Day 282
Tsuboi, C., Numerical tables useful for studying the gravitational field at higher elevations of the Earth 73

Verhoogen, J., Heat balance of the Earth's core 276

Willmore, P. L., Some properties of heavily damped electromagnetic seismographs.. .. 389
